

Your Source For
EXCELLENCE
In Scale Systems

holtgreven ®
SCALE & ELECTRONICS CORP.

Your Source for LOADMASTER®

Since 1957, Holtgreven Scale & Electronics Corporation has made it our objective to provide the highest quality calibration and repair services available. The development of our own Loadmaster® product line and a fleet of specially equipped vehicles have enabled us to offer a full range of high quality scales and service to the industry. Our many years of experience and dependable performance have made us an invaluable resource for a wide range of business types including agriculture, construction, manufacturing, process control and environmental applications.

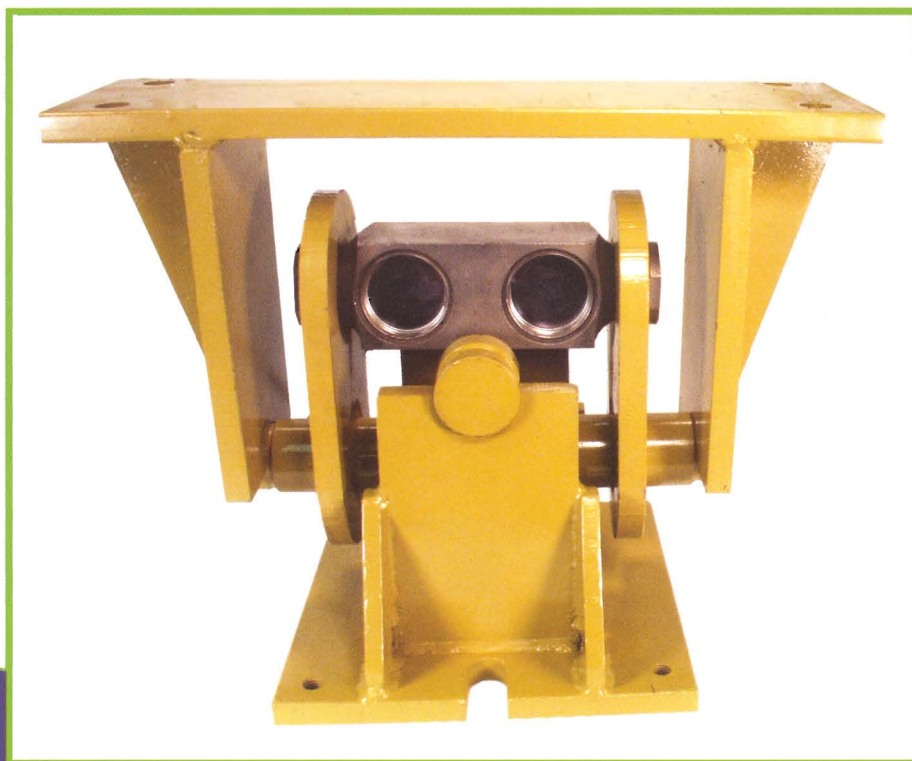

Integrity Built Into Every Product

As a second generation family business, our reputation is as much a concern as the bottom line. Pride in workmanship is evident from the initial stages of design and manufacturing through installation and maintenance. Our products are constantly evolving as we monitor each facet of the process for ways to improve on industry standards.

To assure continued reliability and years of smooth operation, our products are built to withstand the rigors of the harsh industrial environment. Electronic construction eliminates expensive superstructures and ensures the highest

accuracy available. We are proud of our products and guarantee them against any manufacturing defects for a full year.

Free-floating load cell mount used for all vehicle scales.

Mechanical Motor Truck Scales. We can provide turnkey solutions from steel fabrication to concrete construction and scale installation.

ADMASTER

We offer custom controls designed to precisely fulfill your needs.

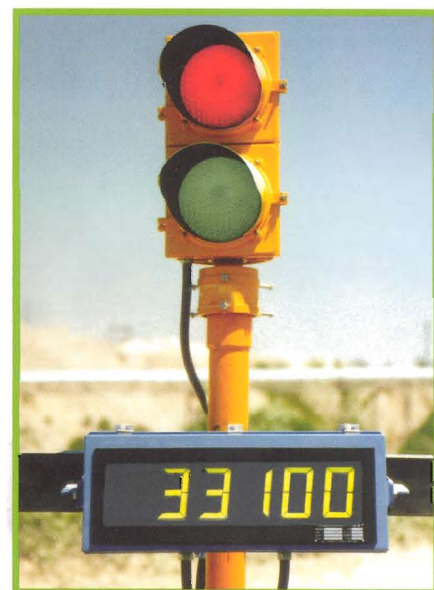

ISO 17025 CERTIFIED

Holtgreven employees are trained and committed to the implementation of our policies, procedures, and work instructions. These policies, procedures, and work instructions (as related to service/ laboratory activities) have been formulated and documented to meet ISO/IEC 17025 guidelines. We have successfully concluded our assessment to ISO/IEC 17025:2005

"General requirements for the competence of testing and calibration laboratories." For more information, please visit our website at www.loadmasterscale.com.

Call us for stoplights and remote displays.

SERVICE AND SUPPORT

Whether it is from our main office in Findlay, Ohio or one of our branches in Toledo, Ohio or Fort Wayne, Indiana, we can offer prompt, professional service, calibration, or repair. Each location has fully equipped vehicles to service and test scales more quickly and accurately. These include heavy duty test trucks with specially designed cranes and hydraulic jacks as well as service vehicles stocked with extensive inventories of parts and test weights. For service in the tri-state area (Michigan, Indiana, Ohio) call 1-800-637-3326.

Multiple types of load cell mounts used.

Concrete decks or steel decks available.
